High Foot (Padded open base)

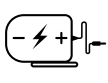

Benefit: ATTRACTION motorized combines a mechanism and a backrest. Thanks to the compact structure is perfect for OPEN BASE sofa (high feet) and chair with a contemporary design. The structure has been designed to become the frame of the furniture itself with housing for cables and control boxes.

Three actuators regulate the mechanism, the first moves the footrest, the second extends the headrest and the third reclines the backrest in order to reach the desired comfort position.
