
	6 MONTHS Warranty
Wired	Wireless	60+/-20gr	Armchairs	Sofas	

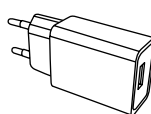

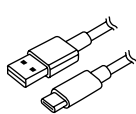

Benefit: BLACKBERRY is a compact, intuitive and functional control panel. The very minimal but characterizing design makes this product iconic. A textured black (soft touch) shell to increase grip during use and a brushed aluminum lexan are some of the features of the BLACKBERRY.

Available in 2 versions (wire and wireless) and in different configurations (from 2 to 4 keys), to satisfy the different needs of the user. The wireless version is also characterized by an integrated rechargeable battery (through a USB connector

type C), which supplants the now obsolete battery versions. The complete charging cycles of the battery takes about 2 hours. In case of inactivity, to avoid irreparable damage to the battery, make a full charge within 3 months from the last (full) recharge. Prolonged unusability significantly reduces the life expectancy of the battery causing permanent damage that excludes it from the Motionitalia warranty conditions.

CONFIGURATIONS		
	2 BUTTONS	4 BUTTONS

OPTIONAL for wireless version		
	USB WALL CHARGER	USB CHARGER CABLE
