

# COUNTACH

BETWEEN HUMAN AND TECHNOLOGY

				6 MONTHS
Wireless	130gr	Armchairs	Sofas	Warranty

**Benefit:** The COUNTACH is a backlit wireless handcontrol with a minimal and attractive design. In addition to the contemporary shapes, the COUNTACH has been designed taking into account the latest technologies on the market. With a fully touch panel, it is equipped with a lithium battery rechargeable to a micro USB cable. The charging cycles of the battery vary depending on the mechanism and the electric kit used (a full

charge takes about 3 hours). In case of inactivity, to avoid irreparable damage to the battery, make a full charge within 3 months from the last (full) recharge. Prolonged unusability significantly reduces the life expectancy of the battery causing permanent damage that excludes it from the Motionitalia warranty conditions. It can control up to 3 seats and it's made of Zamak for durability.

OPTIONAL		
	USB WALL CHARGER	USB CHARGER CABLE
