96mm

Low Foot (Padded closed base)

Benefit: Completely solid and compact structure. Light, fluid and linear opening/closing movement. **EXTRABED low** is a pull-out bed from under the sofa seat. It increases comfort by creating a support for the legs or transforming the sofa into a "sofa-bed". Compared with the mechanism of the same

name, the product's foot is lower (a 'low' feature), which allows for more cushioning of the seat, thus increasing the user's well-being. EXTRABED low has been designed to create padded CLOSED BASE (low foot).
