Different sizes available

Motorized	12kg+/-1kg	Armchair	Sofas	MAX 160kg 360lbs	Cycles:30.000	2YEARS Mechanism 2YEARS Actuator Warranty

Benefit: FACILE hybrid motorized has been designed to be inserted inside smaller padded space. Used mainly in cinema hall armchairs, the reduced but functional opening makes this product very ductile, preserving unchanged the principles of comfort and wellness characteristic of Motionitalia products. With a very solid and compact base structure, the designer has a wide range of choices in the shape of the finished product; an actuator regulates

the movement of the mechanism from closed to TV. The minimal and linear design of the levers makes the movement of the sliding mechanism in order to improve the comfort of the padded. The numerous options make this item customizable: from pins, bases, buttons in order to meet the most sought after needs of our customers. FACILE hybrid has been designed to create upholstered OPEN BASE and SWIVEL (up to 200mm).

Optional
