Benefit: First Class STD reinforced is a complete product as it is equipped with a sliding mechanism (Chaise) that allows the transition from the "closed" position to the "bed" position, enhancing and maximizing the comfort of the user. This is done by moving forward, simultaneously, the seat, the backrest and the headrest. The mechanism, solid and robust is, at the same

time, a perfectly modular product that allows you to compose the padded according to your needs with ease. This model allows easy insertion of the headrest. In addition, it is designed for the most spacious seats: it is equipped with reinforcing bars that make the structure more resistant. This product is used in the design of OPEN-BASE upholstery (high feet up to 150mm).
