

FLAT PRESSURE PAD

Code MOECCO06810

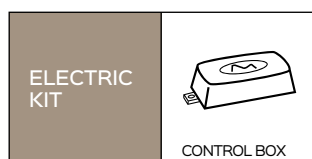

DESIGN IN MOVIMENTO

Benefit: Innovative product developed by the motionitalia team of electronic engineers to meet the demands of an always more technological and innovative market. The presence sensor complies with the other motionitalia electric systems (eko plus control boxes) and interact with them to customized and increase the

functionality of the end product. The sensor activates by simply sitting down, because it detects the change in pressure, and in this way is possible to open and close the footrest or the backrest independently. Extremely thin and sensitive, it is provided with an adhesive side to facilitate the fixing in the upholstery. Measure 250 x 350 mm.
