

KEEPING

BETWEEN HUMAN AND TECHNOLOGY

					6 MONTHS Warranty
Wired	Wireless	60+-20gr	Armchairs	Sofas	

Benefit: KEEPING is a compact, intuitive and functional control panel. The very minimal but characterizing design makes this product iconic. A textured black (soft touch) shell to increase grip during use.

Available in 2 versions (analogical and wireless) and in different configurations (4 keys or 4 keys + home), to satisfy the different needs of the user. The wireless version is also characterized by an integrated rechargeable battery (through a USB connector type C), which supplants the now obsolete battery versions. The

analogical version has a USB C port for charging external devices. The complete charging cycles of the battery takes about 2 hours. In case of inactivity, to avoid irreparable damage to the battery, make a full charge within 3 months from the last (full) recharge. Prolonged unusability significantly reduces the life expectancy of the battery causing permanent damage that excludes it from the Motionitalia warranty conditions.

CONFIGURATIONS			OPTIONAL for wireless version	
 ANALOGICAL			 WIRELESS	
			 USB WALL CHARGER	 USB CHARGER CABLE
