

# LEVANTE

CLASSIC STD LIFT REINFORCED M2

Code PL07470-XX-YY

Made in Italy

Standard sizes (mm)

520

Motorized

25kg +/- 1kg

Armchair

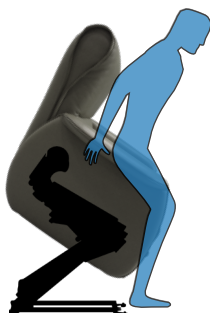

Maximum lifting capacity

MAX  
170kg  
380lbs

Cycles: 30.000

2 YEARS  
Mechanism  
2 YEARS  
Actuator  
Warranty

Positions:

Closed

TV

Full Relax

Lift

**Benefit:** The KEYMOTION mechanisms are built entirely in Italy, from the raw material, to the processing, up to the final assembly and testing. The products are carefully checked before being shipped. This mechanism is designed to ensure high lifting performance and comfort, facilitating the everyday life of the most needy user. Two motors regulate the different positions: closed, TV, full relax and lift. The first actuator, in addition to bringing

the padded in position Lift, extends the footboard by doing a slight tilting action to the seat and backrest; the second actuator instead reclines the backrest until you reach the Full Relax position. The lift system lifts the padded (from closed position) allowing the person to stand upright. The reinforced version has a reinforcement tube that connects the footrest, this ensures greater synchronism and tightness. The mechanism is equipped with a base.

## Optional

|                  |             |                     |                         |              |           |                |                   |                           |
