Lift

Benefit: Lift mechanism designed to ensure high lifting performance and comfort, facilitating the everyday life of the most needy user. Three actuators regulate the different movements in order to ensure infinite positions of use: closed, TV, 0 gravity, full relax, lifting (lift), Lunch. What distinguishes this product from the others in the family is the independent "0 Gravity" position, in any position you can balance the 0 gravity and then have the lunch position. In addition, thanks to this additional inclination that lifts the legs above the heart, blood circulation is also improved. Thanks to the quick coupling system for stem, the assembly is even easier so that even the user can install it easily. Another feature that distinguishes this mechanism

is the adjustable backrest: with its quick hooks, it can be set in 2 different positions, 45mm apart. This will allow the user to decide the depth of the seat, thus ensuring a comfort adaptable to the needs.

Medical version: The peculiarity of this mechanism is the possibility of obtaining it also in the medical version. This special version, designed for the medical sector is presented with a white antimicrobial finish, the IP54 actuators (degree of protection against dust so as not to interfere with the operation of the device. The product is completely protected against solid objects and splashes of water) and dedicated optional.

Optional

SOME ACCESSORIES			ELECTRIC KIT		CONTROL SYSTEM	
	DORSAL	SITTING SHASSIS		ACTUATORS		TOUCH SENSOR
TROLLEY	ARMREST	KINETIC	PLUGS & CABLE EXTENSIONS	POWER SUPPLY & BATTERY PACKS	WIRED/WIRELESS REMOTES	BUILT IN SWITCHES
HEADREST & RATCHETS	HANDLE				SMARTPHONE CONTROL SYSTEM	CONTROL PLATES
