Quick connection

**Benefit:** MITICO 420 with quick connection manual can be used on armchairs and sofas, with a simple movement allows you to move the backrest back by 420 mm increasing the depth of seats. What distinguishes this product is the presence of quick couplers. The latter make

the assembly to the backrest even easier. This allows you to send the disassembled backrest facilitating shipments. The use of high quality materials and the simple but resistant structure make this product easy to install and long-lasting; the exposed parts are embellished with a chrome finish.
