Positions:

Benefit: MOMO motorized has a solid and functional structure, allows the same width between the seat and footboard ensuring visual and formal continuity to the finished product. It allows infinite relaxation positions with simple electric adjustment, all flush with the wall. The footboard design being single lever, acts as a casing and offers

a significant increase in both safety and aesthetics. Finally, this mechanism, thanks to the kinematic mechanism based solely on levers, provides greater stability.

Optional

SOME ACCESSORIES	KD
HEADREST	CIRCULAR PLASTIC STABILIZER BAR
