## **ONDA** bi-power motorized Code PE06420-XXX (without subottoman)

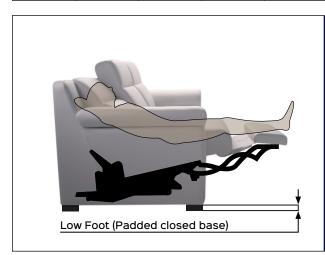

BETWEEN HUMAN AND TECHNOLOGY

Sofas

0-Wall

Armchair

2YEARS Actuator

Warranty

160kg 360lbs

Maximum capacity Cycles:30.000

Benefit: This functional and resistant mechanism allows the seat to maintain the same width between the seat and the under footrest, giving the sofa a visual and formal continuity. Designed for wide seats, thanks to the electric motor this mechanism offers endless relax positions, zero wall. Various finishings are available on customer's request for the visible parts of the mechanism.

The two actuators ensure a sliding and sinuous movement of the mechanism. The motors are next to the hinges to assure more space for the foam and improve the comfort, with the possibility of adding the COMFORTMAXX without an increase of the thickness of the seat. ONDA bi-power has been designed to create padded CLOSED BASE (low foot).

## Optional

Motorized

17kg+/-1kg
