Different sizes available

Motorized	14kg+/- 1kg	O-Wall	Armchair	Sofas	MAX 160kg 360lbs	Cycles:30.000	2YEARS Mechanism 2YEARS Actuator Warranty

Positions:

Benefit: This functional and resistant mechanism allows the seat to maintain the same width of the footrest, giving the sofa a visual and formal continuity. In relax position it is able to raise the legs even higher than its namesake, reaching the "heart position": this particular position is the result of extensive studies that have highlighted that, thanks to the alignment

"legs/ heart" the feeling of relaxation is amplified. This mechanism offers endless relax positions. Various finishings are available on customer's request for the visible parts of the mechanism. ONDA cuore compact has been designed to create padded CLOSED BASE (low foot).

Optional
