Positions:

**Benefit:** This functional and resistant mechanism allows the seat to maintain the same width of the footrest, giving the sofa a visual and formal continuity. Designed for wide seats, this mechanism has a reinforcing bar that makes the structure more resistant and offers endless relax positions. In relax position it is able to raise the legs even higher than its namesake, reaching the

“heart position”: this particular position is the result of extensive studies that have highlighted that, thanks to the alignment “legs/ heart” the feeling of relaxation is amplified. This mechanism offers endless relax positions. Various finishes are available on customer’s request for the visible parts of the mechanism. ONDA cuore compact reinforced has been designed to create padded CLOSED BASE (low foot).

## Optional
