Low Foot (Padded closed base)

Positions:

Closed

TV

Full Relax

Benefit: This mechanism grants maximum durability and strength and it is designed to allow large scale productions. The levers, being visible, are accurately designed and allows the seat to maintain the same width of the footrest, giving the sofa a visual and formal continuity. Thanks to a simple and user-friendly manual release system, the mechanisms can be

opened to TV position. The full-reclined position can be reached by simply pushing on the arms and on the backrest. Various finishings are available on customer's request for the visible parts of the mechanism. ONDA easy relax has been designed to create padded CLOSED BASE (low foot).
