Positions:

Benefit: OPEN SPACE motorized is a highly innovative mechanism. Designed to be fully integrated with the padded allows a great freedom in the stylistic choice of the finished product. The invisible effect obtained through the fixing of the footboard at the center of the mechanism allows the footrest to not affect the product line and disappear completely even when the padding is open. The particular closure of the footrest which remains at about 17° compared to the ground,

allows:

- to make a flap tablet longer (50mm) than the standard mechanisms, increasing comfort in "full relaxation"
- to design a padded with soft lines.

Thanks to the presence of the footstool, the padded mattress remains stretched better in all stages of movement; in addition to ensuring greater support in the calf area. This product is used in the design of OPEN-BASE upholstery (high feet up to 180mm).

Optional

SOME ACCESSORIES HEADREST & RATCHETS	ELECTRIC KIT ACTUATORS	CONTROL SYSTEM BUILT IN SWITCHES	 CONTROL PLATES
 KD	 PLUGS & CABLE EXTENSIONS	 POWER SUPPLY & BATTERY PACKS	 TOUCH SENSOR
 FINISHES		 WIRED/ WIRELESS REMOTES	 SMARTPHONE CONTROL SYSTEM
