Benefit: OPEN SPACE compact is a highly innovative mechanism. Designed to be fully integrated with the padded allows a great freedom in the stylistic choice of the finished product. The **compact** feature allows the upholstery to be made with the more "compact" seat. The particular closure of the footrest which remains at about

17° compared to the ground, allows:

- to make a flap tablet longer (50mm) than the standard mechanisms, increasing comfort in "full relaxation"
- to design a padded with soft lines.

This product is used in the design of OPEN-BASE upholstery (high feet up to 180mm).
