Full Relax

Benefit: OPEN SPACE invisibile D.S.C. is innovative because the footboard is able to lift even more: ninety millimeters compared to previous versions. Designed to be fully integrated with the padded allows a great freedom in the stylistic choice of the finished product. The invisible effect obtained through the fixing of the footboard at the center of the mechanism allows the footrest to not affect the product line and disappear completely even when the padding is open. The particular closure of the

footrest which remains at about 17° compared to the ground, allows:
- to make a **flap tablet longer (50 mm)** than the standard mechanisms, increasing comfort in "full relaxation"
- to design a padded with soft lines.

Thanks to the presence of the footstool, the padded mattress remains stretched better in all stages of movement; in addition to ensuring greater support in the calf area. This product is used in the design of OPEN-BASE upholstery (high feet up to 180mm).

Optional

SOME ACCESSORIES		ELECTRIC KIT		CONTROL SYSTEM		CONTROL PLATES
	HEADREST & RATCHETS		ACTUATORS		BUILT IN SWITCHES	
	FINISHES		PLUGS & CABLE EXTENSIONS		TOUCH SENSOR	
			POWER SUPPLY & BATTERY PACKS		SMARTPHONE CONTROL SYSTEM
