Positions **CLOSED BASE**

Positions **OPEN BASE type B**

**Benefit:** The PROFONDO D.S.C. extended is ideal for making upholstered from the deepest seat (of 70mm) and more compact (of 40mm), compared to the standard version. Thanks to the reduced jaw thickness, it allows great freedom when choosing the design of the finished product; in fact, the mechanics can also be mounted very close to the floor (in the case of a closed base), or raised from the floor (semi open

base). In addition, the extended feature, allows the opening of the armchair, to widen the depth of the footboard, thus increasing comfort (+50mm). A wide selection of finishes allow the customer to further customize the design of the finished product in order to create a unique padding. PROFONDO D.S.C. extended has been designed to make both padded with CLOSED BASE (low foot) and OPEN BASE.

## Optional

<b>SOME ACCESSORIES</b>
