Types of padded realization:

- A. Low Foot (Padded closed base)
- B. Middle Foot (up to 100mm)

Benefit: SCORPION XL manual is the version of the homonymous SCORPION manual, designed for the realization of padding characterized by empty seats outside the standard (800mm). Despite the changes made to meet the new needs of the market, in the case of XL versions, the fundamental features that distinguish the family of Scorpion mechanisms remain unchanged, remaining in fact a sinuous and elegant

mechanism in shape and use. The synchronized manual movement between the mechanics and the backrest, once activated, increases the seat depth by 270 mm, completely transforming the finished product.

SCORPION XL manual has been designed to be upholstered with both CLOSED BASE and OPEN BASE.
