Types of padded realization:

- A. Low Foot (Padded closed base)
- B. Middle Foot (up to 100mm)

Benefit: SCORPION motorized is an innovative product that combines the characteristics of a mechanical relaxation to those of a backrest. The simplicity of use and the elegance of the movement make this mechanism a work of art. The synchronized motor movement between the mechanics and the backrest, once activated, increases the seat depth by 270mm,

completely transforming the finished product. The motorized version also allows the user to choose the positioning of the mechanism in action, according to the needs of comfort throughout the arc of the product movement.

SCORPION motorized has been designed to be upholstered with both CLOSED BASE and OPEN BASE.

Optional
