Positions:

Closed

Full relax

**Benefit:** SITTING BED reinforced is a top of the range product, especially designed for sofas that include a chaise longue element. The mechanism, designed for "standard" sizes (1200mm), thanks to the moving movement combined with that of the headrest allows the padded to elongate by

more than 580mm, replacing the functionality of the ottoman. Thanks to the electronic control the affected seat is able to switch from the position "Chaise" to the "Bed" in no time and safely, thanks to the characteristic 0-wall. Sitting bed is a complete, functional, durable and modular product.

## Optional
