Positions:

Closed

Full Relax

Benefit: The sliding sitting mechanism manual is simple that fits to the frame of the sofa, it's made to high quality material to avoid wear over time. The structure of the mechanism is light but functional, easy to install and versatile, for upholstery with a more futuristic design than those with more minimal

shapes. Equipped with a sliding movement, the transition from a closed position to a chaise longue position takes place manually, bringing the seat forward by a good 36.5 cm.
