Full Relax

**Benefit:** SPAZIO D.S.C. motorized is the compact version (of 40 mm) of the homonymous SPAZIO D.S. In fact, as in the version D.S., the D.S.C. (Deep Seat Compact) is characterized by a deeper seat (+70mm) that in combination with the flap, allows manufacturers of padding to be able to use a single mattress keeping the same width between the seat and footboard. This mechanism, designed for the most spacious

seats (vacuum 1200mm), is in fact equipped with reinforced bars that make the structure more resistant. Thanks to the characteristic Compact, this product is ideal for use in contemporary upholstery, with **open base** (high feet up to 180 mm). The electrical adjustment allows the user to find the most comfortable position of use, all in safety, thanks to the characteristic 0-Wall. Possibility, on request, to customize the finishes of the exposed parts.

## Optional

SOME ACCESSORIES			ELECTRIC KIT		CONTROL SYSTEM		
	CARTER
