TV

Full Relax

Benefit: SPAZIO manual is the manual variant of the homonymous motorized product. The user's weight action combined with a manual release allow the customer to use the padded easily in comfort and safety, thanks to the characteristic 0-wall. The use is simple, by activating the manual release the padding will pass immediately from the closed position to TV; then, moving back the weight of the user the seat will move from the TV position to full relaxation.

In addition, thanks to the presence of a flap in the footboards, the user will have an additional support plan for an unforgettable relaxing experience. The use of the Flap gives the manufacturer the possibility to use a single mattress between the seat and footboard with the aim of creating padding with a unique and contemporary design. The exposed parts, on request, can be embellished with various finishes. SPAZIO manual is a product suitable for the construction of upholstered open base.
