Benefit: SPAZIO slider motorized is an innovative product that enriches the possibilities offered by SPAZIO products. Unlike other family mechanisms, the slider has a sliding component that allows the seat to move horizontally ("slides" position); in addition, designers can indulge in devising innovative upholstered, placing the armrest over the seat, without compromising the movements of the mechanism. The electric regulation allows

the user to find the most comfortable position of use, in safety, also having the characteristic 0-Wall. The movement of this mechanism is operated by two actuators that allow the operation of the footboard to be released from that of the backrest, thus moving independently. SPAZIO slider is available only in the motorized version and is a product indicated in the design of **open-base** padding. Possibility, on request, to customize the finishes of the exposed parts.

Optional

SOME ACCESSORIES		HEADREST & RATCHETS
	CARTER	
	KD	
	FINISHES	

ELECTRIC KIT	
	PLUGS & CABLE EXTENSIONS
	ACTUATORS
	POWER SUPPLY & BATTERY PACKS

CONTROL SYSTEM		CONTROL PLATES
	BUILT IN SWITCHES	
	TOUCH SENSOR	
	WIRED/ WIRELESS REMOTES	
	SMARTPHONE CONTROL SYSTEM
