800	761

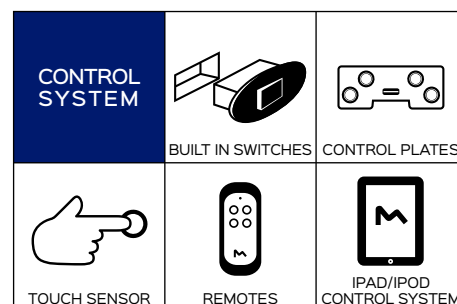

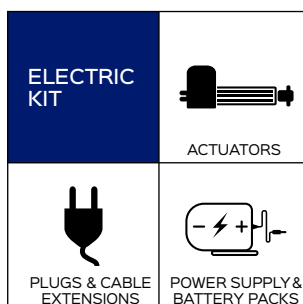

Different sizes available

Benefit: The SPIN UP total back motorized electric headrest has a solid and resistant structure. The peculiarity of this product is the perfect combination between the backrest features and the headrest once, in fact, once fixed on the frame, the spin up allows a 100 mm increase of the support surface of the back in addition

to a rotation of the final part of the mechanism of 43° (as a headrest), which allow the user to find the perfect conditions for a correct cervical posture, in all positions. It is equipped with a safety return mechanism that stops in case of an obstacle but at the same time allows the total closure once the obstacle is removed.

Optional
