Benefit: With the mechanical SUITE D.S.C. ext. footrest the experience of relaxation is even more complete. Top version of the SPAZIO family, the mechanics is innovative because the footboard is able to rise even more: ninety millimeters compared to previous versions. This aspect added to the presence of a flap revisited, makes the footboard longer (+50mm). The peculiarity of this footboard means

that in closing, this does not remain parallel to the floor, but at about 20°. This allows the prototypist to make an even longer flap tablet to have more leg support in the opening. This mechanism is perfect for creating upholstery from the most compact and deep seat with a higher level of comfort. This mechanism has been designed to make upholstered both CLOSED BASE and OPEN BASE (high feet up to 180mm).

Optional
