Positions:

Benefit: The mechanism SUITE D.S.C. two motors is ideal for upholstered with a more compact seat. The reduced thickness allows to choose among a wide range of designs of the finished product. The presence of two motors allows to release the operation of footboard and seat (which move in a synchronized manner) from that of the backrest (which is driven by a dedicated engine). By operating the actuators you can choose, therefore, whether to recline the backrest

or move the seat and footboard; or to move the two elements simultaneously. The result is endless possibilities of choice in the desired relax position. Top version of the SPAZIO family, the mechanics is innovative because the footboard is able to lift even more: ninety millimeters compared to previous versions. Different finishings of the visible parts can be customized. SUITE D.S.C two motors has been designed to make upholstered OPEN BASE (high feet up to 180mm).

Optional

SOME ACCESSORIES			ELECTRIC KIT		CONTROL SYSTEM		
	CARTER			ACTUATORS		BUILT IN SWITCHES	
KD	FINISHES		PLUGS & CABLE EXTENSIONS	POWER SUPPLY & BATTERY PACKS	TOUCH SENSOR	WIRED/ WIRELESS REMOTES	SMARTPHONE CONTROL SYSTEM
