Benefit: Suite Invisible compact, top version of the SPAZIO family, is innovative because the footboard is able to lift even more: ninety millimeters compared to previous versions. Designed to be fully integrated with the upholstery allows great freedom in the choice of design and aesthetics of the finished product. The invisible effect is achieved by fixing the footboard

to the center and no longer to the sides. This allows the mechanics not to affect the product line and to completely disappear even when the upholstery is open. The compact appearance of this product makes it ideal for sofas and armchairs **open base** (high feet up to 180 mm).

Optional
