Benefit: With SUITE compact smart motorized the relaxation experience is even more complete. Top version of the SPAZIO family, the mechanics is innovative because the footboard is able to lift even more: ninety millimeters compared to previous versions. Thanks to the characteristic "compact" the seat is closer to the ground (compared to the standard mechanics), which allows the creation of a padded

from the lower line. The small footprint of the footboard makes it suitable for smaller spaces while maintaining a comfortable posture of rest for the legs. The exposed parts can be embellished with various finishes. The mechanical SUITE compact smart has been designed to make upholstered both CLOSED BASE and OPEN BASE (high feet up to 150mm).

Optional
