Positions OPEN BASE type B

**Benefit:** The presence of two actuators, a distinctive element of the **two ways** version, allows you to release the operation of the footboard, making it completely independent of the seat and the back; which will be moved by another actuator. This will give us the choice of moving the footboard, just the seat, or both in a synchronized way. The result is

endless choices in the desired relaxation position. Top version of the SPAZIO family, the mechanics is innovative because the footboard is able to rise even more: ninety millimeters compared to previous versions. SUITE two ways smart has been designed to make upholstered both CLOSED BASE and OPEN BASE (high feet up to 150mm).

## Optional
