

TAURUS

bed classic vertical lift M2

Code PL07200-XXX

Standard sizes (mm)

520

			 MAX 150kg 330lbs	 Cycles:30.000	2YEARS Mechanism 2YEARS Actuator Warranty
Motorized	25kg +/-1kg	Armchair	Maximum lifting capacity		

Positions:

Closed

TV

Full Relax

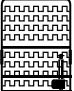

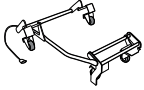

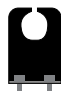

Lift

Benefit: Lift mechanism designed to ensure high lifting performance and comfort, facilitating the everyday life of the most needy user. Two actuators regulate the different movements in order to ensure infinite positions of use, from closed to TV to full relax to lifting (lift). The actuator that has the function of extending the footboard also plays a slight tilting action of the seat and backrest; the second actuator instead reclines the backrest

until it reaches the position of maximum extension. Both movements are independent of each other, to allow maximum freedom of use. In addition, the vertical-lift system raises the padding without rotation for the first 100mm, allowing the person to adapt to intermediate heights before standing. Finally, the BED backrest increases the comfort in the open position with an inclination of as much as 22° more than the standard version. The mechanism is equipped with a base.

Optional

SOME ACCESSORIES					ELECTRIC KIT		CONTROL SYSTEM	
	KIT SUPPORT CONTROL BOX	KIT SUPPORT BATTERY	DORSAL	HANDLE		ACTUATORS		TOUCH SENSOR
								
	KIT KD TAURUS	TROLLEY	KIT SUPPORT CONNECTOR	KIT CARTER		PLUGS & CABLE EXTENSIONS		BUILT IN SWITCHES
