Relax

Trumbet

Benefit: TRUMBET is a complete product as it is equipped with a sliding mechanism (Chaise) that allows the transition from the "Closed" position to the "Relax" position, enhancing and maximizing the user's comfort. This is done by moving the seat and back forward at the same time. The mechanism,

solid and robust, is, at the same time, a perfectly modular product that allows you to obtain infinite lifting positions of the back and/or legs, giving the user a pleasant feeling of comfort. This product is used in the design of upholstered open base (high feet up to 150mm).
