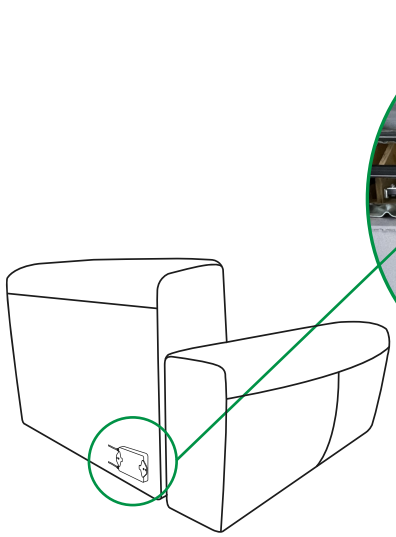
BATTERY 1800mAh

Code MOPS09624

BETWEEN HUMAN AND TECHNOLOGY

6 MONTHS
Warranty



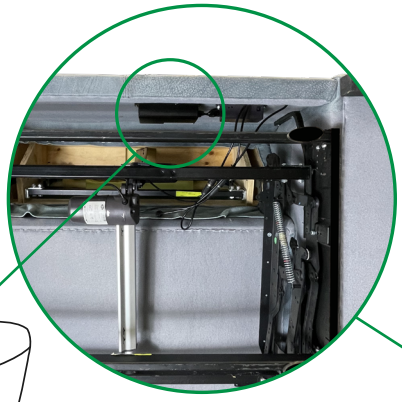


Fig.1

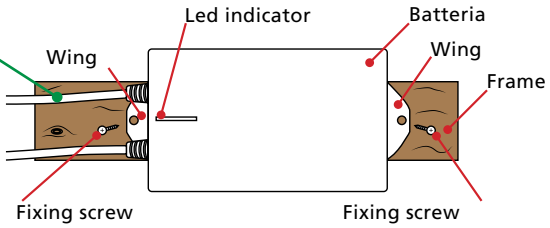
DC Socket

Fig.A Fig.B



Benefit

FEATURES:

- Nominal capacity of the Cell Pack: **1800mAh**
- Charge voltage/entry: **24vdc-30vdc**
- Nominal voltage of the Cell Pack: **25.9V**
- Nominal Energy of the Cell Pack: **46.62Wh**
- Maximum discharge current: **5A**
- The battery is equipped with two fins that make it easy to attach directly to the drum (by means of two simple screws, **Fig.1**).
- LEDS to check the status of the charge (**green LED** indicates that the battery has completed charging, the **orange flashing LED** indicates that the battery is charging).

INSTRUCTIONS AND PRECAUTIONS FOR USE:

- To charge the battery, connect the power supply socket to the power supply socket (Fig.A) of the battery. Once connected, **the LED will transmit a red light**. When the battery runs out, it will beep.
- Use the male socket (Fig.B) of the battery to power the Motionitalia devices installed in the padded.
- For proper use of the battery, **it must be recharged immediately every time it is fully discharged**; (each charging cycle reduces the performance of the battery).
- In case of non-use, to avoid irreparable damage to the battery, **make mandatory a full charge within 3 months from the last recharge (complete) made (even for batteries stored in stock); the prolonged use greatly reduces the battery life expectancy causing permanent damage that excludes it from the Motionitalia warranty conditions.**
- For proper charging, **install the battery on its holder** (see pictures above) and connect the power supply/charger to the relevant input connector.
- The full charging time is about 6 hours.
- The standby duration of a full charge may vary depending on the user appliance being applied to it.
- Do not tamper/open the device for any reason.
- Relying on authorized personnel if necessary technical assistance service.
- **Use only Motionitalia charging devices**.
- When shipping the finished product (padded) it is advisable to **disconnect the battery**.
